The total cost of publishing 1,355 copies of this public document, including first printing and reprints, is $9,788.00. This document was published by the Louisiana Department of Labor, Office of Employment Security, Research and Statistics Unit, P.O. Box 94094, Baton Rouge, La. 70804-9094. Its purpose is to disseminate information pertaining to labor market developments and employment trends under the authority of Part 602.6, Title 20, Chap. V. of the Code of Federal Regulations. It was printed in accordance with the standards for printing by state agencies established pursuant to R.S. 43:31.

PREFACE

The "Annual Planning Report" is an analytical statistical report which summarizes recent manpower developments and forecasts future developments in the state of Louisiana. The report covers developments in the state and centers on areas where manpower problems are concentrated.

The report is designed to be a tool in both employment security planning operations and in assisting other responsible agencies in the planning and administration of their programs.

SECTION I

DESCRIPTION AND ASSUMPTIONS

STATE DESCRIPTION - LOUISIANA

The state of Louisiana consists of 64 parishes and has a total population of 4,558,950. With a total land area of 44,521 square miles (115,310 square kilometers), the state is relatively densely populated, at an average of 102.4 persons per square mile (39.5 per square kilometer) as compared to the national average of 63.9 persons per square mile. According to the 1980 federal census Louisiana was the nineteenth most populous state in the country. Louisiana is a comparatively "young" state; the median age in 1980 was 27.3 years.

The state is located in the extreme south central part of the United States, bounded on the west by Texas, on the north by Arkansas, on the east and northeast by Mississippi and on the south by the Gulf of Mexico. The climate of Louisiana is determined mainly by the huge land mass to the north, its subtropical latitude, and the Gulf of Mexico to the south. Summertime temperatures range from 85 degrees F. to 95 degrees F. during afternoons and 65 degrees F. to 75 degrees F. in the early mornings. Average winter temperatures range from 55 degrees F. to 65 degrees F. in the afternoons to 40 degrees F. to 50 degrees F. during early morning hours, although higher and lower readings are often observed. Freezing temperatures are recorded on 30 to 40 days in North and Central Louisiana during an average year and on 10 to 35 days in the southern parishes. The annual average precipitation in Louisiana for 1980 was 57.56 inches.

The four most heavily populated parishes in the state are Orleans, Jefferson, East Baton Rouge, and Caddo. Besides being the most populous, Orleans is also the most urbanized (99.9 percent in 1980), the most densely populated (2,816.1 persons per square mile), and the second smallest in land area (199 square miles). The smallest parish in land area is West Baton Rouge, with 194 square miles; the largest is Cameron with 1,417 square miles. Assumption parish has the largest percent of ruralized population (85.7 percent of the population lives outside urban centers).

Louisiana blends a wealth of historic charm, rich natural resources, and giant modern industries. Fertile soil, adequate rainfall, temperate climate, an ample and adaptable labor force, navigable waterways and excellent highway systems are factors basic to the state's wealth.

The southern section of Louisiana has many coastal marshes, bayous and generally low and flat terrain. The central portion is characterized by flat delta land suitable for agriculture. The northern part of the state is higher, with rolling hills and valleys. This variety of land types encourages an equally wide variety of both agricultural and industrial pursuits. The proximity of the state to the Gulf of Mexico; and its strategic location at the mouth of the Mississippi River provide the necessary entrance and egress for worldwide commerce.

LOUISIANA BACKGROUND AND ASSUMPTIONS

Louisiana's 1988 unemployment rate averaged 10.9 percent, a decrease of 1.1 percent from the revised 1987 average of 12.0 percent. The national unemployment rate for 1988 stood at 5.5 percent, down from 6.2.

Nonagricultural wage and salary employment was 1,501,500 for 1988, up from 1,483,600 for 1987. Significant increases occurred in most areas of non-agricultural employment. Manufacturing increased to 1,501,500 from 1,483,600. Durable goods stood at 170,100, up from 164,500; non-durable goods, 94,900, up from 94,000; mining 56,600, up from 54,800; construction 84,100, up from 81,300; transportation and public utilities 107,100, up from 104,700; services 327,300, up from 319,200; government 314,000, up from 313,100.

Wholesale and retail trade showed a decrease for 1988, dropping to 359,600 from 361,500 in 1987. Wholesale trade increased to 82,000, from 81,400 in 1987. The decrease in retail trade, from 280,100 in 1987 to 277,600 in 1988, was due to a downturn of employment in food stores, auto dealers and service stations, eating and drinking places, and other retail trade.

The finance, insurance, and real estate segment showed a decrease from 84,500 in 1987 to 82,500 in 1988. The banking portion decreased from 25,100 to 23,600.

Only the Alexandria and Monroe labor market areas did not show decreases in unemployment for 1988. Alexandria had an average unemployment for 1988 of 10.0 percent, the same as 1987; Baton Rouge, 9.3, down from 10.0; Houma-Thibodaux 11.1, down from 15.7; Lafayette 9.8, down from 12.7; Lake Charles 11.8, down from 12.9; Monroe 10.4, up from 10.0; New Orleans 9.5, down from 10.1; Shreveport 10.6, down from 11.1.

The average weekly wage paid in manufacturing increased from $455.62 in 1987 to $462.58 in 1988.

The trend of modest growth in most areas of the economy is expected to continue through 1989.

Ouachita Parish	(Monroe)	144,997
Rapides Parish	(Alexandria)	139,231
Terrebonne	(Houma)	101,396

The total population of the state for 1988 is projected at 4,558,950.

POPULATION CHANGES IN LOUISIANA

1980 - 1988

In 1980, the population of Louisiana stood at 4,199,542. Despite a downturn in the oil industry, the population has continued to grow, and in 1988 it stood at 4,558,950, a change of 8.5 percent over the 1980 figure.

All but five of the 64 parishes (counties) showed gains in population. East Carroll Parish decreased from 11,799 to 11,202; Franklin Parish from 24,106 to 24,034; St. Mary, 64,521 to 64,075; Tensas 8,482 to 8,093; and Winn, 17,239 to 17,014.

St. Tammany Parish showed the most growth with a population increase of 42.5 percent, from 109,868 to 156,582. St. Tammany Parish, along with the parishes of Jefferson, Orleans, St. Bernard, St. Charles, and St. John make up the New Orleans Metropolitan Statistical Area (MSA). Jefferson Parish increased 6.0 percent to 479,439; Orleans, 0.2 percent, to 558,961; St. Bernard, 9.0 percent, to 69,414; St. Charles, 19.9 percent to 44,897; St. John, 37.6 percent, to 43,924.

Three parishes in the Baton Rouge Metropolitan Statistical Area showed growth from 1980 to 1988. Livingston Parish increased 32.2 percent, raising the population to 76,820; East Baton Rouge Parish was up 7.9 percent to 397,694; West Baton Rouge Parish grew by 11.0 percent to 21,077.

Lafayette and St. Martin Parishes, the parishes that make up the Lafayette MSA, showed substantial increases. Lafayette Parish grew by 20.5 percent to 179,141 and St. Martin Parish grew by 18.5 percent to 47,490.

LOUISIANA
1986-87

Louisiana is one of the 51 states in the United States. (The District of Columbia is included for ranking purposes). Its 1987 population of 4,460,800 ranked 20th in the nation.

In 1987, Louisiana had a per capita personal income (PCPI) of $11,482. This PCPI ranked 48th in the United States and was 74 percent of the national average ($15,484). The 1987 PCPI reflected an increase of 2.2 percent from 1986. The 1986-87 national change was 6.0 percent.

In 1987, Louisiana had a total personal income (TPI) of $51,219,205*. This TPI ranked 23rd in the United States and accounted for 1.4 percent of the national total. The 1987 TPI reflected an increase of 1.3 percent from 1986. The 1986-87 national change was 7.0 percent.

Total personal income (TPI) includes the earnings (wages and salaries, other labor income, and proprietors' income); dividends, interest, and rent; and transfer payments received by the residents of Louisiana. In 1987, earnings were 66.4 percent of TPI; dividends, interest, and rent were 15.8 percent; and transfer payments were 17.9 percent. From 1986 to 1987, earnings increased 0.7 percent; dividends, interest, and rent increased 1.9 percent; and transfer payments increased 2.9 percent.

Earnings of persons employed in Louisiana increased from $36,132,097* in 1986 to $36,329,657* in 1987, an increase of 0.5 percent. The largest industries in 1987 were services, which accounted for 24.0 percent of earnings; state and local government, 13.0 percent; retail trade, 10.0 percent; and transportation and public utilities, 8.8 percent. Of the industries that accounted for at least 5 percent of earnings in 1987, the slowest growing from 1986 to 1987 was mining (5.5 percent of earnings in 1987), which declined 11.1 percent; the fastest was services, which increased 5.5 percent.

*All income estimates with the exception of PCPI are in thousands of dollars.

CONSUMER PRICE INDEX

The Consumer Price Index, sometimes called the "Cost of Living Index" is a monthly measure of the average change in prices in a fixed quantity of goods and services. Prices are gathered from 85 areas across the country. The years 1982-84 are used as the base period. While the CPI may provide a broad outline of price fluctuations, it cannot reflect individual buying trends or regional experiences.

1/ EFFECTIVE WITH DATA RELEASED FOR JANUARY, 1977, ALL HOURS AND EARNINGS STATISTICS PUBLISHED BY THIS AGENCY ARE BASED ON THE 1972 ISSUE OF THE STANDARD INDUSTRIAL CLASSIFICATION MANUAL.

THESE SERIES ARE ADJUSTED TO A FIRST QUARTER 1988 BENCHMARK AND WERE COMPILED BY THE RESEARCH AND STATISTICS UNIT OF THE LOUISIANA DEPARTMENT OF LABOR IN COOPERATION WITH THE U. S. DEPARTMENT OF LABOR, BUREAU OF LABOR STATISTICS. DATA ARE FOR FULL AND PART-TIME PRODUCTION WORKERS WHO WERE EMPLOYED DURING THE PAY PERIODS ENDING NEAREST THE 12TH OF EACH MONTH. EXCLUDED ARE PROPRIETORS, FIRM MEMBERS, AND EXECUTIVE EMPLOYEES. AVERAGE EARNINGS ARE GROSS, REFLECTING CHANGES IN BASIC HOURLY AND INCENTIVE WAGE RATES, PREMIUM PAY FOR OVERTIME WORK, AND SHIFT DIFFERENTIALS. WORK WEEK INFORMATION RELATES TO AVERAGE HOURS WORKED OR PAID FOR.

SECTION VIII

POVERTY GUIDELINES

CHARACTERISTICS OF THE ECONOMICALLY DISADVANTAGED

An economically disadvantaged person is one who is a member of a family which receives cash welfare payments or whose annual income in relation to family size and location does not exceed the established poverty levels listed below. As of April, 1989.

FAMILY SIZE	POVERTY GUIDLINE
1	$5,980
2	8,020
3	10,060
4	12,100
5	14,140
6	16,180
7	18,220
8	20,260

For family units with more than 8 members, add $2,040 for each additional member.

Please notice that there is no longer a distinction between Farm and Non Farm Family.

BARRIERS TO EMPLOYMENT OF THE ECONOMICALLY DISADVANTAGED

Barriers to employment often hinder several groups of people from finding and obtaining employment. Groups who have these special problems often experience an unemployment rate higher than the rest of the labor force.

Educational deficiencies are the greatest barrier to employment of the disadvantaged. The lack of education and specific skills that are in demand can cause tremendous difficulties in obtaining employment.

Lack of training or actual job experience is also a major barrier to employment. Even though a person may have an adequate education, he may lack the training or experience necessary to perform a specific job.

Poor health is a very common problem that can affect employability. If a person is seriously handicapped, finding suitable employment and arranging transportation to it may be very difficult. Also, a worker is sometimes forced to remain at home or limit their work schedule to care for an ill or disabled family member.

Problems concerning transportation can be enormous for the disadvantaged. The rising cost of automobiles and gasoline have attributed to the problem. Also, the price of public transportation has increased in some areas and some lines and schedules have been discontinued, making fewer transportation alternatives available for many of the disadvantaged.

Other prevalant problems include police records, rigid hiring practices by employers, child care, and personal problems.

SECTION IX

JOB TRAINING PARTNERSHIP ACT (JTPA)

JOB TRAINING PARTNERSHIP ACT

The Job Training Partnership Act (Public Law 97-300-Oct 13, 1982) is replacing the Comprehensive Employment and Training Act of 1973 as the nation's major employment incentive program. The purpose of this Act is to establish programs to prepare youth and unskilled adults for entry into the labor force and to afford job training to those economically disadvantaged individuals and other individuals facing serious barriers to employment, who are in special need of such training to obtain productive employment.

Under the Job Training Partnership Act, many responsibilities formerly carried out by the Federal Government devolve to States and local labor markets. The Governor has approval authority over locally-developed plans, and is responsible for monitoring local program compliance with the Act. In addition, a new public/private partnership is created to plan and design training programs as well as to deliver training and other services.

SERVICE DELIVERY AREAS, designated by the governor, based upon recommendations of the State Job Training Coordinating Council, will deliver services under the Act. Seventeen of these areas which include the entire state, have been designated in Louisiana. Planning functions of both the Governor's representatives and the service delivery areas will require considerable statistical information including the characteristics of populations in the respective areas.

In the case of labor force data, unrounded figures have been shown since allocation procedures require their use rather than the normally published rounded information.

PHOTOGRAPHERS	-583
TELLERS	-567
DRIVER/SALES WORKERS	-342
ELECTRICAL, ELECTRONIC ASSEMBLER	-314
BOOKKEEPING & ACCOUNTING CLERKS	-318
STENOGRAPHERS	-315

SECTION XI

EXPLANATORY NOTES

EXPLANATORY MATERIAL

The information presented in this document was compiled by the LA Department of Labor, affilated with the U. S. Department of Labor.

An explanation of some of the terminology used in this report follows:

LABOR AREA: A labor area is a geographical area consisting of a central city or cities and the surrounding territory in which there is a concentration of economic activity and in which workers can usually change jobs without changing their residence.

CIVILIAN LABOR FORCE: The civilian labor force represents the sum of the employed (exclusive of the Armed Forces), the unemployed, and persons involved in labor-management disputes.

EMPLOYMENT: Employment estimates are developed mainly from a sample of establishments which report regularly on their employment. These estimates are periodically compared with comprehensive data on employment obtained from tax records, which provide benchmarks for the various non-agricultural industries. Appropriate adjustments are made as needed.

NONAGRICULTRUAL WAGE AND SALARY EMPLOYMENT: Nonagricultural Wage & Salary Employment refers only to employees on establishment payrolls during the sample week in each month (this week always includes the 12th of the month) and excludes self-employed, unpaid family workers, and workers involved in labor-management disputes.

ALL OTHER NONAGRICULTURAL EMPLOYMENT: This category includes persons who work in non-farm industries that are not reported on payrolls, such as self employed workers, domestic workers in private households, and unpaid family workers.

UNEMPLOYMENT: Unemployment data included in this report is conceptually comparable with that released by the United States Department of Labor each month for the country as a whole. The unemployment estimates include all workers not at work but actually seeking work. Unemployed workers are counted by their place of residence. The unemployment rate represents the number of unemployed as a per cent of the civilian labor force.

APPLICANTS: Applicants are individuals who are registered with the local Job Service Office and are reasonably representative of the available worker supply in most occupational categories and for most sections of the area.

PLACEMENTS: Placements occur when a local Job Service Office, which has an employer job order, refers a qualified applicant to the employer and verifies the fact that the applicant has been hired by the employer.

SECTION XII

LABOR MARKET INFORMATION

In addition to other services, the job service provides labor market information to the public and other governmental agencies. Below is a partial list of publications giving various types of labor market information.

DICTIONARY OF OCCUPATIONAL TITLES (DOT)

This document provides approximately 20,000 job descriptions in 1,371 pages. This volume is of particular use to those engaged in career counseling and job planning and can be purchased from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

OCCUPATIONAL OUTLOOK HANDBOOK

This handbook is published by the U. S. Department of Labor, Bureau of Labor Statistics. One section gives the outlook for the economic situation for the next few years. Another section describes each occupation according to types of work, qualifications needed, and other factors.

OCCUPATIONAL EMPLOYMENT FOR SELECTED NONMANUFACTURING INDUSTRIES

This publication provides estimated occupational employment for selected nonmanufacturing industries and can be obtained by contacting the Louisiana State Department of Labor, Research and Statistics Unit. A handbook for manufacturing industries is also available.

ANNUAL PLANNING REPORT (APR)

This report is a manpower report prepared each year. It includes employment and unemployment trends and expectations. This report can be obtained from the Administrative Office, Research and Statistics, of the Department of Labor.

MANPOWER INFORMATION FOR AFFIRMATIVE ACTION PROGRAMS

This publication gives labor force data by sex, race and ethnic group for the state of Louisiana and for individual labor market areas and is prepared by the Louisiana Department of Labor, Research and Statistics Unit.

LOUISIANA LABOR MARKET INFORMATION

This newsletter provides data on employment trends and analyzes local economic situations on a statewide basis and in eight major urban areas. These can be obtained from any Job Service Area Office.

LICENSED OCCUPATIONS IN LOUISIANA

This publication provides up to date general information on occupations licensed in the state, licensing of certain business activities and processes and the sale of certain products.

LOUISIANA EMPLOYMENT PROJECTS - 1986 - 1995

This publication includes projections which offer estimates based on job openings in 1986 and projected 1995. These projections should help both applicants and employers to better meet the demands of the future.

Publications produced by and available from: Louisiana Department of Labor, Research and Statistics Unit, Post Office Box 94094, Baton Rouge, Louisiana 70804-9094 (504) 342-3141

Employment Security Activities	Continuous Coverage of services rendered to applicants by the Job Service on both an "individual" and "transaction" basis, as well as Unemployment Insurance data, includes some characteristics of both applicants and claimants. Available monthly from September 1974 through September 1981 and yearly from 1982 to present.
Employment and Wages, annually	Data published yearly from quarterly contribution reports, by parish and by industry; includes number of firms, employment levels, total wages, and firms by employment size. (also published quarterly)
Louisiana State Labor Market Information, monthly	Published monthly and includes labor force, employment, unemployment, and unemployment rate for the state, Metropolitan Statistical Areas (MSA's) and for parishes not included in an MSA. Also included is nonagricultural wage and salaried employment by major industry groups for the state and MSA's; and Average Weekly Wages, Average Weekly Hours, and Average Hourly Earnings for selected industries for the state and 3 major MSA's.
Manpower Information for Affirmative Action, annually	Prepared to meet employer requests for population and labor force data by sex, race and ethnic group for the state and 53 labor market areas. Meets basic requirements of Revised Order No. 4, Subpart B, paragraph 60-2.11; section (A), (1), (i) - (v) and (2), (i) - (v) as far as Affirmative Action programs are concerned. (certain additional breakouts can be compiled upon special request)
Annual Planning Report	Contains narrative analysis of labor market, including current and historical employment and unemployment trends and expectations by industry as well as population characteristics and occupational supply and demand data. Produced individually for the state and eight major labor market areas.
Occupational Employment Statistics 3 year cycle	Six current individual publications including employment and staffing patterns for selected industries. Each industry breakdown lists most prevalent occupations and those with the greatest employment levels. Available currently: Selected Manufacturing Industries, and Health Services, 1986; Selected Non-Manufacturing Industries, 1987; Educational Services, 1985; Federal and State Government, 1985; Trade & Regulated Industries, 1985.
Employment Projections	Will contain employment by industry and occupational demand to 1995 for the State and Service Delivery Areas. (Scheduled for publication late 1989)
Average Weekly Wage, upon request	Form letter verifying average weekly wage figure applicable to maximum weekly benefits for both unemployment compensation and worker's compensation in Louisiana.
Louisiana Occupational Injuries and Illnesses	Contains incidence rates of occupational injuries and illnesses in the private sector, by industry, for calendar year of survey.
